

PATIENT INFORMATION
COMMONWEALTH SURGICAL SERVICES, INC.
LEWISTOWN HOSPITAL VASCULAR LABORATORY

Vascular Lab Exams are performed by appointment only.

To schedule, reschedule, or cancel an appointment **scheduled by Dr. Rice** please call **the office at 717-242-7939**.

A signed physician order/request must be presented at the time of the examination. If an order/request is not available the test will need to be rescheduled or delayed.

No special preparation is necessary for extremity or carotid testing.

Do not eat, drink, chew gum, or use tobacco after midnight for renal artery, aneurysm, or other abdominal testing. Medications may be taken with a very small sip of water if needed. This avoids air entry into the abdomen that prevents acceptable imaging.

Needles and medications are usually not used during test performance.

The Vascular Lab will try to perform tests at the scheduled time. The staff is expected to be prompt and courteous. If you have complaints about your testing experience please let us know.

LOCATION

The Lewistown Hospital Vascular Lab is on the Fourth Floor of the Hospital. Enter the Hospital using the Emergency Department, third, or fourth floor entrances and follow the signs to the Vascular Lab.

WOUND CLINIC PATIENTS

Exams require access to the extremities. If dressings need to be removed for examination performance please report to the wound clinic on the fourth floor before and after the examination. Allow enough time to ensure arrival at the scheduled Vascular Lab appointment time.

QUESTIONS

Questions about study performance may be directed to Commonwealth Surgical Services, Inc. at 717-242-7939.
